

iOS Developer

(m/f)

We at Twopeople Software are looking for a responsible and skilled Kiev-based iOS developer with 1+ year of experience with Swift. We are offering a lot of interesting tasks including app development from a scratch and designing internal protocols. We need someone who would help us implement all the things we come up with, test it and release to our users.

Requirements:

- English skills (at least, B1)
- Dev skills: Swift, Realm, Autolayout, StoreKit,
- More dev skills: Grand Central Dispatch, CocoaPods, Sketch
- Even more dev skills: Git, Google Analytics
- 1+ year experience

Responsibilities:

- Developing apps from a scratch
- Developing app updates
- Fixing bugs in older apps
- High level of involvement

What we offer:

- 40h workweek
- a workplace at a coworking space in the center of Kiev
- a young, passionate and motivated team
- Scrum
- a decent compensation

If it sounds like you or you know someone who might be interested, hit us up at contact@twopeoplesoftware.com!
